

KIS-ORCA Boundary 2018

The expanded KIS-ORCA project area for 2018 has been defined by the OSPAR area plus the EEZ waters of geographic Europe. Figure 1 depicts this area in blue. Figure 2 and Table 1 illustrate the OSPAR area and provide coordinates for this area. The EEZ boundaries have been derived from the MarineRegions dataset which is publically available for download here: <http://www.marineregions.org/>
